Dear visitor,

The Ministry of Agriculture and Livestock (MAPA) is the Brazilian government body responsible for the public policies of stimulation of agriculture and continuously seeks to promote the improvement of the sector as a supplier of food for Brazilians and the world. MAPA works to integrate sustainable development and competitiveness by ensuring food security and food surpluses for export, strengthening the domestic productive sector and facilitating Brazil's access to the international market. MAPA annually carries out a series of commercial promotion actions such as participation in trade fairs, technical visits and benchmarking missions among others.

We are pleased to present the companies participating in the Pavilions Brazil in international trade fairs in recent years. The variety of products and segments shows the richness and diversity of Brazilian agribusiness. In its deep commitment to continuing to deliver sustainable and high-quality products to you and the world, Brazil is paving the way not only to meet the strictest standards when it comes to food quality but also to ensure food security for future generations.

If your company is listed here and you need to update your information, send an email to cgpc_2@agro.gov.br.
