

**aquaprole®**  
supply fresh products

## Who we are

With more than 25 years of experience, Aquaprole is the fastest growing global food manufacturing and trade organization. We specialize in an extensive range of foods and edible products. We are committed to providing quality food products to our customers through our reliable network of suppliers and distributors across world. In addition, we work closely with food producers, importers, wholesalers, brokers, and investors to help them gain a competitive edge in the global food market.

Our relationship with our clients is built on trust and dedication. In the light of the changing environment of international food enterprises, we provide supply chain management to our customers to assist them in becoming global players. Over the years, we have become the most reliable and leading global food traders by serving international food manufacturers and customers with cost-effective and technologically advanced solutions, value-added opportunities, and distinctive logistics.

## Our Mission

Our mission is to help food manufacturers, dealers and investors successfully develop and expand their business to local and international markets. We provide them with our knowledge, expertise, technology, and logistics at budget-friendly rates.

## Our Vision

At Aquaprole, our vision is to develop a thriving and future-driven company that significantly improves the health and lives of people and communities worldwide by ensuring the production and delivery of premium food products.

Despite the current global reach and continuous exponential growth, the humble beginning of AQUAPROLE goes back to Singapore. AQUAPROLE S.A PTE Ltd was a commodity trading company specialized in the trading & distribution of variety of commodities worldwide.

## Who we are

Operating over the years, we piled up decades of experience in distributing hundreds of thousands metric tons of commodities to numerous countries yearly. At such scale, AQUAPROLE® became the branded trademark for multiple retail products distributed all over the world.

## Who we are

### Our Culture

Our brand focuses on developing a collaborative culture, and it is the foundation of our local and international partnerships.

We adopt a transparent and adaptable approach to facilitate our partners and team and ensure to build long-term relationships.

KHOUBIAN Investment Group LLC, is a legal ownership of Aquaprole and known for information technology, frozen meat commodity business, and real estate investments globally. After the acquisition of Aquaprole, the new Global Manufacturing and Commodity trading company continued to work under the Aquaprole trademark and with new management.

The company now has its headquarter in Canada, distribution and storage facility in Poti, Georgia, co-manufacturing and storage facility in Qingdao, China, and sales offices in 8 countries.

AQUAPROLE INC has a reputation of high quality and reliable partner and cover the whole range of commercial services in the market of agricultural commodities.

Our brand's main goal is to develop a culture of partnership and cooperation at both the local and international levels. Our collaborative culture centered around our team, customers, and suppliers ensures the advantages of developing long-term partnerships. By motivating the team, we create a healthy work environment that brings value to our clients and partners. Our versatile team of employees possesses international experience and foreign language skills, providing the possibility to easily solve any problem. We recruit people into the team who lead trends rather than following general market behavior. Our goal is to help our customers and partners effectively respond to the constantly changing international food business.

We strive to maintain control and balance to prevent significant obstacles when conducting business with international partners. Our partners conduct business within the framework of legal procedures with our team that is familiar with current legislation in the field of international relations.
