INTERNATIONAL EXHIBITIONS & CONFERENCES  
iteca.events

Khalil M. Elhaj Tawfiq  
Chairman  
Amman Chamber Of Commerce

Dear Khalil M. Elhaj Tawfiq,

On behalf of "ITECA" LLP, we express our respect and invite you to cooperate in the upcoming exhibitions and business events held by our company in Kazakhstan.

For over 30 years, ITECA has been creating professional platforms for interaction between businesses, government agencies and industry associations. As a leading organizer of exhibitions, conferences and forums in Kazakhstan, we annually hold about 26 large-scale events in the cities of Astana, Almaty and Atyrau. Our events are held with the support of relevant ministries and departments of the Republic of Kazakhstan, as well as regional administrations, industry associations and international organizations.

**Advantages of participation in ITECA exhibitions:**

- ✓ **Access to new markets** - our exhibitions attract more than 62,647 unique visitors from 95 countries, including key buyers and distributors, representatives of business, government agencies and professional communities.
- ✓ **Direct dialogue with potential partners and clients** – personal meetings at the exhibition stand increase the level of trust and speed up decision-making on cooperation, provide an opportunity for negotiations, concluding contracts and establishing long-term business relationships.
- ✓ **International business environment** – in 2024, 3,566 companies from 62 countries took part in our events, including 47 national stands and 122 collective expositions.
- ✓ **Information and marketing support** – exhibitors receive ample opportunities to promote their brands, products and services at the international level.
- ✓ **Relevant business program** – events include round tables, panel discussions, thematic seminars and master classes, where key trends and market insights, development prospects for industries and individual significant projects are discussed.

ITECA exhibitions cover 24 key sectors of the economy, including oil and gas, construction, transport and logistics, occupational safety and health, agriculture, energy, healthcare, food industry, tourism and others. In 2025, we are expanding our activities by launching new exhibitions on textile industry, pharmaceuticals, plastics industry and chemical industry.

In this regard, we invite your organization to consider the possibility of participating in the upcoming events, as well as to assist in informing companies in your region about the opportunities that ITECA exhibitions offer.

We are ready to provide comprehensive support in organizing the participation of enterprises, as well as to facilitate the effective conduct of negotiations, meetings with key partners and the expansion of business ties.

Attached is the calendar of ITECA 2025 and 2026 exhibitions.

We will be glad to see business representatives from your region among the participants of the events and are confident that cooperation with ITECA will be a significant step towards the development and strengthening of market positions.

Sincerely,  
Boris Danilenko  
Director  
TOO "ITECA"
