Chairman
Amman chamber of commerce
Khalil M. Elhaj Tawfiq

Dear Khalil M. Elhaj Tawfiq,

Iteca LLC extends its compliments and expresses its interest in developing mutually beneficial cooperation with your organization through international exhibitions and business events held in the Republic of Kazakhstan.

For more than 30 years, Iteca has been contributing to the development of a professional business environment by bringing together representatives of the private sector, government authorities, industry unions, and professional associations. Today, Iteca is one of the leading operators in the exhibition and conference industry in Kazakhstan, annually organizing over 30 large-scale international events in Astana, Almaty, and Atyrau.

Our projects are implemented with the active participation and support of relevant ministries, regional and local authorities, industry associations, and international institutions.

Participation in Iteca exhibitions and business events provides companies with a range of tangible benefits, including:

- **Expansion of business geography:** by the end of 2025, Iteca events attracted 67,441 unique professional visitors from more than 100 countries, including buyers, distributors, business representatives, and government officials.
- **Effective B2B engagement:** in-person meetings at exhibition venues facilitate trust-based communication, accelerate negotiations, and support the conclusion of commercial agreements.
- **Strong international representation:** in 2025, 3,946 companies from 66 countries participated in Iteca exhibitions, including 42 national pavilions and 18 collective group stands.
- **Comprehensive marketing support:** exhibitors are provided with a wide range of promotional tools to enhance visibility among target audiences in Kazakhstan and Central Asia.
- **Extensive business programs:** conferences, panel discussions, round tables, and master classes enable participants to stay informed about key industry trends and promising development areas.

Iteca events cover 24 key sectors of the economy, including oil and gas, construction, transport and logistics, industrial safety, agriculture, energy, healthcare, food industry, tourism, and other priority areas. In 2026, the company plans to further expand its portfolio by launching new exhibitions in the fields of the textile industry, ophthalmology, non-destructive testing, and technical diagnostics.

In this regard, we kindly invite organizations from your region to consider participation in upcoming Iteca events and to disseminate information about these exhibitions among relevant partner companies and institutions.

Iteca stands ready to provide comprehensive support to participants, including organizational assistance, facilitation of business meetings, support during negotiations, and assistance in establishing and expanding partnerships.

Please find enclosed the Iteca exhibition calendar for the spring and autumn 2026 seasons.

We would be honored to welcome representatives of your region among the participants of our events and are confident that cooperation with Iteca will create additional opportunities for business development and strengthening market positions.

Yours sincerely,

Boris Danilenko
Director
Iteca LLC
